#### I.Summary of the project:

"Youth workers 4 human rights" is a 8-day training course organised in Bansko, Bulgaria from 27 March 2023 till 3 April 2023 that gathers 30 youth workers, youth leaders, active young people from Germany, Serbia, Slovakia, Romania, Italy, Spain, Latvia and Cyprus.

As a youth worker, you have a unique opportunity to advocate for human rights and empower young people to make a positive change in their communities. Human rights are fundamental rights that everyone is entitled to, regardless of their race, gender, ethnicity, or religion. These include the right to life, liberty, and security, freedom of expression and assembly, and protection against discrimination and violence.

One of the most important roles of a youth worker is to educate young people about their human rights and encourage them to stand up for those rights. This can be done through workshops, trainings, and other educational activities that help young people understand their rights and the ways in which they can advocate for themselves and others.

In addition to education, youth workers can also support and empower young people to become advocates for human rights. This can include providing resources and opportunities for young people to engage in activism, such as organising protests or participating in campaigns to raise awareness about specific issues.

It's also important for youth workers to create a safe and inclusive environment where young people can express themselves and feel heard. This means actively working to address issues of discrimination and inequality, and promoting diversity and inclusivity in all aspects of your work.

Ultimately, as a youth worker, your role in promoting human rights is crucial. By empowering young people to become advocates for their own rights and the rights of others, you can help create a more just and equitable society for all.

#### **Aims and Objectives:**

The focus of the project "Youth workers 4 Human rights" was investing in the capacity of youth workers and respectively their organisations to tackle minority youth issues on local and European level. The project also focused on directly increasing the quality of activities and services provided by the partner consortium for minority youth groups they work with on local level by actively involving youth workers/ coordinators/staff members directly working on minority issues at the sending organisations.

To reach its aim, the Training course has the following specific objectives:

- To enhance the understanding of human rights among youth workers: The program aims to provide youth workers with a comprehensive understanding of human rights, including the principles, concepts, and mechanisms related to human rights protection.
- To develop skills for promoting human rights: The program aims to develop the skills of youth workers in promoting and protecting human rights, including advocacy, communication, and conflict resolution.
- To promote intercultural dialogue and understanding: The program aims to promote intercultural dialogue and understanding among youth workers, to enable them to work effectively in diverse cultural contexts and promote human rights in multicultural societies.
- To strengthen the role of youth workers in promoting human rights: The program aims to strengthen the role of youth workers in promoting and protecting human rights, and to enhance their capacity to engage with policy makers, civil society organisations, and other stakeholders.
- **To foster international cooperation:** The program aims to foster international cooperation among youth workers, to enable them to share good practices and develop joint initiatives for promoting and protecting human rights.

Overall, the Erasmus+ training course program "Youth workers for Human rights" seeks to empower youth workers to play an active role in promoting and protecting human rights in their communities and beyond

Name of the tool:	Walk their shoes
Themes/Topic	Activity about better understanding of different abled people
Target group:	Youth participating in a Erasmus project, high school class or summer camp group
Group size:	2-30
Time	3-6 hours
Overview of the activity:	The activity will be implemented in 6 phases:  1. Energizer  2. Explanation of the activity and the rules  3. Creation of the groups: they will be pairs  4. Give the pairs some tasks to do. 6. Debate
Aims and Objectives:	To have a better understanding of how the people with disabilities has day-by-day difficulties that normative people doesn't realize. To search for solutions to make more accesible cities.
Materials and space needed:	We need to get some wheelchairs, blindfold, crutches, casts depending on the number of people of the group.

Step-by-step instructions:

The group makes pairs. One of the pair has a disability, for instance:

- a) Wheelchair
- b)Leg amputee
- c) Blindness
- d)Arm amputee

Every pair has a different disability. The one in the pair with the disability should be with him/her and help. They can change at the middle of the exercise.

They are given some tasks to do in the city, like a Gimkana.

The activities can be:

- a) Go to a supermarket and buy whatever
- b) Ask in a coffee shop and ask for the toilet
- c) Go to a room in the higher floor

(if they are in a hotel)

- d) Visit a local park and take a picture having fun
- e) Go to a museum
- e) Prepare some lunch or coffee

These are just examples. The coordinator can choose and adapt the activities depending on group and the circumstances.

After the given time (around 2-3 hours) the pairs return to the common space and they would do a briefing.

Debriefing and	evaluation:		After the given time, the groups would put in common what they find out:
			-What tasks they couldn't do.
			-What they could do with helpWhat tasks they could do because there was an adapted space for them.
			-What tasks they could do in some spaces and in others notHow people around reacted to them.
			-How they felt.
			After that, the group would put in common some solutions they think can be done to avoid
			complications for people with disabilities
			They can also discuss if the country or the city has real worry about inclusivity and accessibility.

Name of the tool	Campaigns
Themes/Topic	Impact of hate speech on youth from minorities
Target group:	13-30
Group size:	10-30
Time	1h-2h
Overview of the activity:	The activity will be implemented in 6 phases:  1. Energizer  2. Explanation of the activity and the rules  3. Creation of the groups  4. Preparation time  5. Presentation of the groups  6. Debate
Aims and Objectives:	Educating people about how much the campaign has changed in the modern times. To spark a conversation about how people use different ways to spread hate speech.
Materials and space needed:	Papers, pens, markers,
Step-by-step instructions:	· After splitting into groups (2-5), half of the groups will have the task of creating a poster representing the modern hate speech campaigns against minorities, while the other half of the groups does the same thing but instead of modern campaigns they focus on older campaigns (20th century)

Debriefing and evaluation:	What has changed through time?	
	Do you think the modern or old campaigns were more successful?	
	What emotions do the campaigns spark?	
	Debate about the different posters you have created.	
Additional information, notes (Appendixes)		

Name of the tool:	Humans Above All
Themes/Topic	Fears and Challenges of Minorities
Target group:	Youth above 15
Group size:	10-40
Time	1:10 hours
Overview of the activity:	The activity will be implemented in 5 phases:  1. Energizer  2. Explanation of the activity  3. Creation of the groups  4. Preparation time  5. Discussion of the groups
Aims and Objectives:	<ol> <li>To make the participants feel the fears and challenges of the minorities.</li> <li>To break the "Minority" Stereotype.</li> </ol>
Materials and space needed:	Papers, Pens, Bowl/Hat, TV or computer.

Step-by-step instructions:	1. First there will be an Energizer (Mimic Dance). All participants will make a circle. We will play some music. One person will lead the dance and all others standing in the circle will follow. The person standing in the centre of the circle will have to guess who is leading the dance.
	2. The organiser will divide the participants into groups based on the Minorities written on small paper slips, and then ask them to work on the topics they get.
	3. Each group will take a paper, write just in list (Bullet points) what are the issues, challenges faced by the Minority group they get. Any first hand experiences are welcomed.
	4. Then after 15 mins, the papers will be changed with the other groups and they will briefly tell what issues are written.

Debriefing and evaluation:	Will ask how they feel, what new things they learn, how they can help improve the condition in their countries.
